## Program Riset Putusan Hakim Berdimensi HAM di 5 Wilayah (dua tahap)

### A. Latarbelakang

Putusan hakim merupakan produk proses peradilan (*judiciary process*) yang sesungguhnya memiliki banyak dimensi. Upaya untuk melakukan penelitian dilakukan untuk melihat 3 aspek penting dalam setiap putusan yaitu kemanfaatan, kepastian dan keadilan dalam setiap putusan yang dihasilkan oleh Hakim. Hal ini dilakukan untuk mengurangi potensi penyimpangan dalam proses peradilan dan menciptakan dunia peradilan yang bersih dan berwibawa.

### B. Ringkasan Kegiatan

Ada 2 kegiatan yang dilakukan oleh PUSHAM UII bersama dengan Komisi Yudisial dalam riset putusan hakim ini. Kegiatan pertama adalah riset putusan hakim untuk semua kasus, baik perdata, pidana, agama maupun TUN, yang dilakukan

selama 3 bulan dengan 18 kasus. Semua kasus dianalisa secara menyeluruh dengan melihat bentuk formal dari setiap putusan serta pertimbangan-pertimbangan hakim yang terdapat dalam putusan tersebut. Ada 3 aspek yang di analisa yaitu filosofis, yuridis dan sosiologis. Ketiga aspek ini dijadikan pisau analisa dalam menilai sampai sejauh mana putusan tersebut memenuhi kepastian, keadilan dan kemanfaatannya.

Kegiatan kedua adalah riset putusan hakim yang berdimensi HAM selama 5 bulan dengan 10 putusan. Pada riset kedua ini semua kasus yang memiliki dimensi HAM di analisa dengan menggunakan aturan yuridis HAM baik ditingkat nasional maupun internasional, serta pendapat dari pakar HAM.

Yang dianalisa adalah menyangkut

kemampuan hakim untuk memberikan pertimbangan HAM di dalamnya.
